The Rug Collection have used ECONYL® 100% regenerated yarn to create brand new rug collections.

Crafted from 100% regenerated waste, from fishing nets to fabric scraps, ECONYL® turns trash into treasure.

ECONYL® knows no boundaries in performance or quality, delivering the closest thing to magic in the realm of yarns.

No waste.

No new resources.

Just endless possibilities.

**Our appetite to create new products
and buy new products is infinite.
The Earth's resources aren't.**

**ECONYL® Regenerated Nylon turns
a waste problem into an exceptional
commercial grade yarn.**

It's made by recovering nylon waste; such as
fishing nets from the oceans and aquaculture,
fabric scraps from mills and carpets destined
for landfill, and turning it into virgin quality
nylon yarn.
